Stainless Steel Glass Rinsers, 4-1/2"W

Royal Series Underbar

16-144

Description

- Krowne's 16-144 Glass Rinsers is primarily used to rinse residual soap and sanitizer out of glasses prior to filling to ensure that any residues do not ruin the tastes of drinks, especially beers for patrons. In addition, rinsing a glass helps the overall texture of a draft pour, as the water will create a slippery surface, minimizing friction and surface tension. This will create a smoother, less foamy pour.

Standard Features

- 4-1/2" disc diameter
- Stainless steel perforated grid
- 1/2" NPSM thread x 2-1/4" shank
- Includes adapter to fit 3/8" flexible water line
- Replaces all underbar manufacturers rinsers
- Repair kit available (16-146)
- Weight: 1 lb.

Product Compliance

- NSF-61 & NSF/ANSI 372
- ASME A112.18.1-2012/CSA B125.1-12
- Massachusetts approved
