## Intelligent Heated Display Cabinet with Humidity

Model: IHDCH-45

Hatco's Intelligent Heated Display Cabinet with Humidity is the perfect way to showcase your pizzas and more. Regulating air temperature while at the same time balancing the humidity level provides the best environment for food products. With 360° viewing, and LED lighting, your food is guaranteed to get all the attention.

### Standard features

- Air flow pattern is designed to maintain consistent cabinet temperature without drying out food
- Air flow system enables the cabinet to recover temperature rapidly after opening and closing a door
- LCD touchscreen display on back of unit controls temperature, humidity and up to eight timers for each food location
- USB port in back of unit makes it easy to establish standard, pre-programmed settings for consistency and reliability
- Adjustable arms can move up and down the back supports (unit can hold up to six pizza arms)
- Arm diameter can open up to 19.5" and can hold up to 8.5 lbs.
- Lighted Power On/Off (I/O) switch
- Stainless steel construction and stainless steel finish

SIDE VIEW

A water filter is included with the unit to install on the water supply line before it enters the unit.

## WATER QUALITY REQUIREMENTS

Incoming water in excess of 3.0 grains of hardness per gallon (GPG) (.75 grains of hardness per liter) must be treated and softened before being supplied to unit(s). Water containing over 3.0 GPG (.75 GPL) will decrease the efficiency and reduce the operating life of the unit.

**Note: Product failure caused by liming or sediment buildup is not covered under warranty.**
