

Butane Fuel with TS Valve & RVR

Butane Just Got Safer!
Sterno Butane Delivers new Innovative Safety Technology

Features & Benefits:

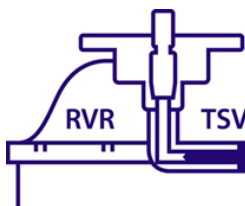

- Protect your operations, guests, and property with this new innovative safety system
- This unique dual safety system contains a **Temperature Sensing Valve (TSV) & Rim Vent Release (RVR)** Technologies
 - **TSV** safely shuts off the flame if the stove is being misused & overheating
 - **RVR** is a back-up safety technology protecting an unused can from over-pressuring
- Compatible with all Sterno Butane appliances
